Pharmaceutical

CLIENT
Reckitt Benckiser

Exceeding
Expectations

Constant
Communication

Minimum
Disruption

As major world leader in the Health, Hygiene and Home Products market, Reckitt Benckiser needed a Specialist Construction company that could meet their strict schedule and irregular working times.

Challenge

Building Projects Group were part of a Team contracted to update Reckitt Benckiser's Nurofen Production Facility to meet the stringent standards of the South Korean Market. Building Projects Group Ltd had to refurbish the Nurofen Production Facility whilst maintaining the current levels of worldwide distribution in a 24 hour operational environment.

Works Completed

All works were enclosed with metal & stud 'Antinox' temporary partitions with zip door airlocks & tack mat entrances, to prevent contamination within the live areas.

- Fabrication of air Handling Unit support frames which were craned on to the roof
- Roof penetrations and making good
- Removal of existing doors, modifications to walls, floors and ceilings to accommodate new installation of rapid roll doors
- Concrete bunding
- Stainless steel kerb fabrication and installation
- Installation and testing of racking
- Epoxy resin covered upstands
- Partitions & MF ceilings
- Airlock formation
- Altro Whiterock Walls
- Protectorseal Specialist Coatings
- Decoration

Solution

With careful planning, our team achieved completion ahead of programme in order for validation for compliance for the stringent production requirements.
